**“Cow Chip Bingo”**

The cow will be released at 3:00pm.

If your block receives the first cow chip, you win \$10,000!

If the cow chip lands on the dividing line of two blocks, the \$10,000 will be divided equally between the two block owners.

If the cow chip lands at the intersection of four blocks, the \$10,000 will be divided equally among the four block owners.

Designated judges will follow the cow and determine the exact location of the chip.  
The decision of the judges is considered final.

Block locations, which will be determined at random prior to the release of the cow, may be viewed at the event prior to the release of the cow.

There is a three hour time limit for the cow chip to be deposited. If after the three hour limit there has been no winner declared, the judges will pick a block ticket at random. The owner of the block will receive a \$10,000 prize.
